

TEACH EM
Turtles!

WHITEPAPER

INTRODUCTION

The Teach'm Turtles are a unique set of life-like turtles with hand drawn attributes. All turtles come with an exclusive membership, to belong to a community which focuses on educating as well as participating in leading the community as a community based project. We are also an ecosystem friendly project with goals of helping the environment. Turtles are a core part of the ecosystem which is where the project derives the core essence from.

TURTLES AND THE ECOSYSTEM

The people we have worked with and who we plan on working with are Green Team, Team Seas & many more to come.

Small Ways An Individual Can Make A Difference

Wildlife monitoring at state parks. Conserving energy and water: Simple actions like turning off lights and appliances when not in use, and taking shorter showers, can help conserve energy and water.

Educating others: Educating friends and family about environmental issues, and encouraging them to take action, can help create a larger network of environmentally-conscious individuals.

Planting trees and creating green spaces: Planting trees and creating green spaces in your community can help absorb carbon dioxide and improve air quality, as well as provide habitat for wildlife and improve community well-being

It's important to note that these are just examples, and there are many other ways that a small group of people can help the ecosystem. The key is to find ways that work for you and your community and make it a consistent part of your life.

To put it simply, we are raising awareness about the horrors of our planet's reality. We have worked with T.R.E.E Inc & organised beach clean ups. There is a lot more we would like to do and we would like our community to participate and help out as well. Every month or two we have IRL events where we meet with the founders AND WE contribute a little to the world.

PHASE 1

Community Building

Mission is to build a community of entrepreneurs out of our holders where we all exist for the first phase with a community centric approach. Our community will get to vote on where and how the funds are allocated. This will show our holders that their voices matter.

Spreading awareness and connecting with people directly, keeping the fun aspect of the project we will start with twitter & collaborate with projects as well network with other communities and other builders. We support other builders and build alongside them.

Poker Events & Building

Community will be built with one of its focuses being playing and participating in poker because we love poker! Collaborate with projects and get poker events lined up with other NFT Projects every week.

Voting & Community Funds

Early access to community will get the people a team role to build with us. 10% of the mint's revenue is allocated towards the Community Wallet. This will then be used for activities that the community votes on.

5-10% towards Ocean & Web3 Conservation will also be allocated.

Only holders who hold 5 will be rewarded from the community wallet, disbursements dates could be voted on by the community.

Fund Allocated for Community wallet

Creator fee 2%

Compound revenue 25%

Mint percentage 10%

Metaverse Casino Compound

We have partnered with MetaDream Studios to build a 3-story compound in the metaverse (Decentraland). The building has a museum on floor one, an investment firm on floor 2, and floor 3 a top tier gentlemen's club where members can literally gamble with crypto whether slots, black Jack or Texas hold 'em. All floors are open to the public. 25% of this compound revenue in decentraland will be allocated to community wallets as well.

READ ABOUT TEACH EM'VERSE
MENTIONED ON PAGE 07

Free Mint Pass as Allow list Distribution

We will develop Free mint tokens for our OGs & WLs, these members with the OGs & WLs roles in the discord will get access to minting OG or WL Mint Pass.

First Phase Mint

Opening the mint for the first phase. Mint date to be voted on by the community! Become part of our discord to be part of the turtles! —

TEACH EM'VERSE

1st Floor

Metaverse museum with NFT's hanging on every corner of the wall. These NFT's are marketplace integrated and can be bought and sold inside of the museum.

TEACH EM'VERSE

2nd Floor

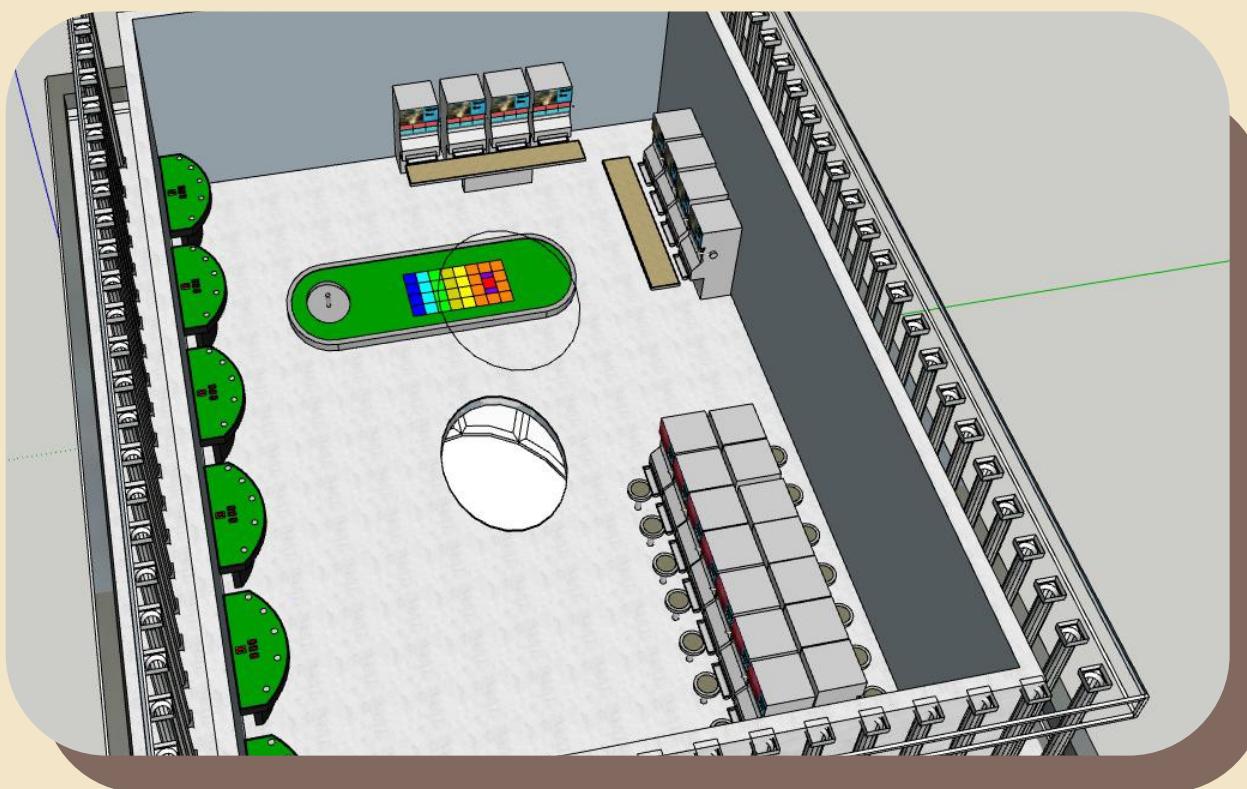

Decentralabz Trading Firm. This floor is for our financial education centre. There are screens on every wall showing our team trading history, trade setups for the week, and training videos that are exclusive to our TT holders.

TEACH EM'VERSE

3rd Floor (Sector 16)

The club is mostly for online gambling with crypto currency , but there is a section designed for live entertainment. The interior design is based on the movie “Harlem nights” and will have live comedy and music shows on our centre stage surrounded by casino games!

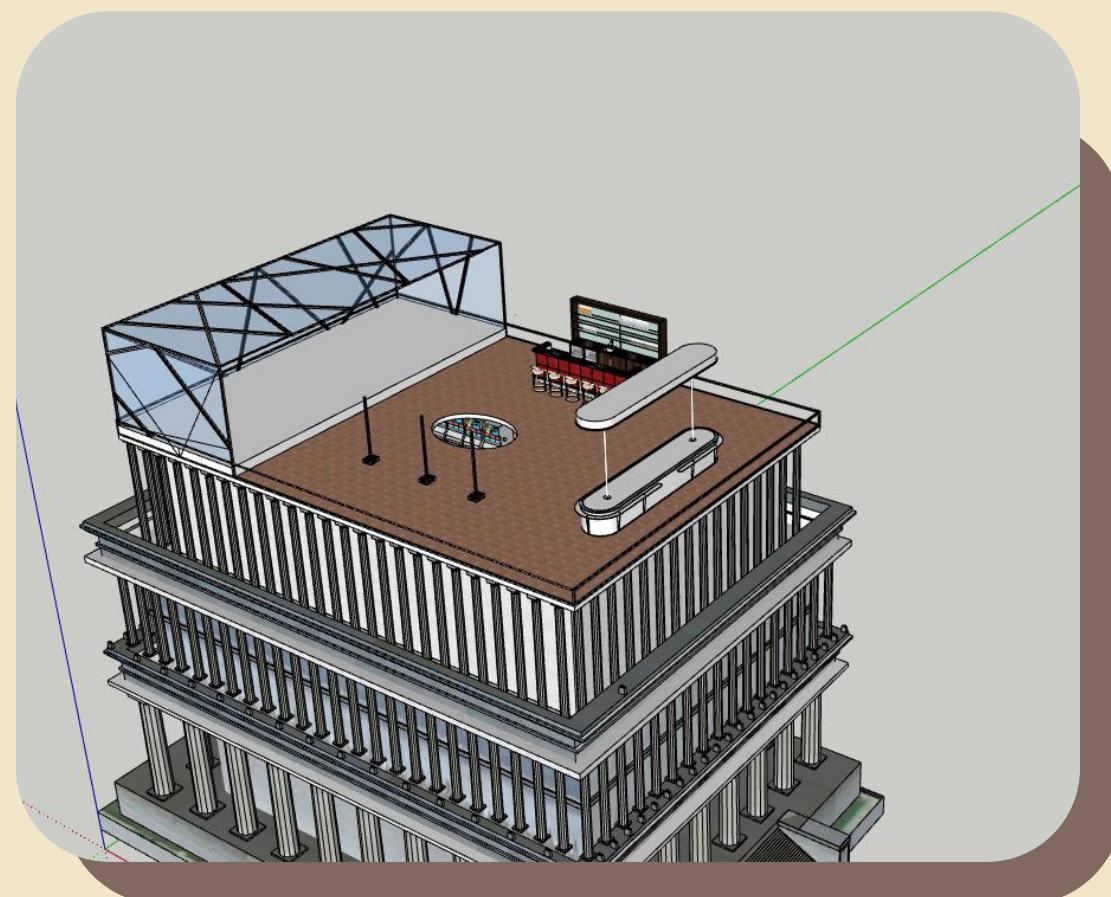

TEACH EM'VERSE

Rooftop (Sector 304)

This section is a top tier Gentleman's club with a glass ceiling. The floor is open spaced with a bar on bar on the left, a few stripper poles in the middle and a main stage on the right side of the building. Some dancers are AI robots, and do not require a tip service but there are other dancers that are in real life. Meaning you can tip the dancer with the crypto in your wallet for a live show IRL.

These 2-day events will be exclusively for Teach Em' Turtles Holders. We will host private parties regularly. Events will be announced. Day 1 is for financial education and investor masterminds, day 2 is for live entertainment, music, comedy, dance, and art.

PHASE 2

Build with us!

Building and Collaborating with more projects for the second mint. Mint Date TBD after the first phase sells out. Supply TBD. Join the Teach em' Turtles now for more we plan on doing a lot more to us we support people joining in early.
